 Peer Nomination

AWARD DESCRIPTION

This medal recognises the exemplary achievement of an individual who has significantly contributed to public health education in Australasia. The individual may or may not be in the more traditional public health space (for example, outside a university) but will demonstrate a history of driving improvements, innovations and capability building to advance public health education over their career. The CAPHIA Medal celebrates the diversity and long-term strategic thinking of our public health leaders, which reflect the practice itself.

Professor Rosemary McKenzie

Melbourne School of Population
and Global Health (MSPGH)
University of Melbourne

BIOGRAPHY

Professor Rosemary McKenzie (BA, PGDipHlthPromotion, MPH, PhD) is the Director of Teaching and Learning and Deputy Head of the Melbourne School of Population and Global Health (MSPGH) at the University of Melbourne. Rosemary is a highly experienced and effective public health researcher and communicator whose research in safety and quality of telehealth, clinical governance, primary care policy, health promotion, healthy ageing and integrated healthcare has contributed to health system strengthening and policy nationally. Rosemary has had significant influence on strategy in educational programming and student recruitment and her highly strategic vision for an internationally acclaimed and highly sought-after teaching portfolio has translated into world-class learning experiences for students who she encourages and inspires. She actively nurtures the development of colleagues and public health students and is widely regarded as a role model of integrity and compassion.
